Sept 16

Mr Weisberg

Thank you for your response.

My ideas are not based on conjecture.
My source was Mr Richard Watson who was to be the witness that Willem Oltman was to bring before the Committee on Assassinations. Watson had photographs and documents to prove his contentions.

As you may know, Miss Abigail Folger was rich and gave support to many leftist organiztions. She was a good friend of the Kennedys and met Frykowski through Lee Radziwill.

The jim garrison investigation was instigated by bobby kennedy to put heat on the FBI.

To a large extent, these assassinations and murders are only the internal struggle of various political factions and hopefully the assholes will kill each other off and do us all a favor.

However, there is an element that is exploiting this dissension to their own advantage. If you have an interest in this, I will try to arrange for you to meet them.

Yours truly,

GOD TOLD ME TO

Director: Larry Cohen
Cast: Tony Lo Bianco, Sandy Dennis, Sylvia Sidney, Deborah Raffin

87 minutes 1976
(C) $150 R

In one of the most bizarre movies ever made, a sniper carrying a cheap mail-order rifle picks off unsuspecting victims from a water tower overlooking the streets of Manhattan because "God told him to." Countless grisly acts of murder are caused by an extraterrestrial being who forces the human killers to believe they are following God's will. After a policeman goes berserk during a St. Patrick's Day parade, a courageous lieutenant finds the culprit—a creature too awful to imagine.
